Gene Haas Advanced Manufacturing Lab

Student guide. No app or account needed: just your phone and campus email.

1 Submit a project

- Describe your part.
- Upload a CAD file (STEP, STL or DXF).
- Staff review it and email you an **approval number**.

2 Reserve a machine

- Enter your approval number.
- Pick machine, day (up to 14 days ahead) and hour slots.
- Cancel at least 2 hours before the start.

3 Check in

- Scan the QR code on the machine.
- Enter the **4-digit code on the TV**.
- Wait for a supervisor to approve you.

4 Check out

- Tick the cleanup checklist.
- Say if your tools or setup are staying in the machine.
- Enter the TV code. Report any damage.

Be on time

Not checked in 15 minutes after your start = a **strike**. 3 strikes pause booking for 14 days. Strikes expire after 30 days.

Leaving something in a machine?

It shows **DO NOT TOUCH** for up to 1 day (tools) or 3 days (setup). Clear it out when done from My shop.

Need a slot that's taken?

Join the waiting list, or open the schedule and tap **Ask for a different time**.

Your account

My shop shows your approvals, reservations and strikes. Sign-in is a 6-digit code emailed to you.

Problems?

Phone dead, wrong code, or machine down: ask the supervisor on duty. In an emergency, stop all machines and follow staff instructions.

Safety first: never run a machine you aren't authorized on.
